CSUA informs studes and parents on AN2040

As part of the University's commitment to the National Economic and Development Authority's Philippine Development Plan (PDP) 2017-2022, the blueprint for the country's development under the Duterte Administration, Ambisyon Natin 2040 presentation gets known by the CSUA community.

Ambisyon Natin 2040 represents the collective long-term vision and aspirations of the Filipino people and for the country in the next 25 years. It describes the kind of life that people want to live, and how the country will be by 2040. As such, it is an anchor for development planning across at least four administrations.

Ambisyon Natin 2040 is a picture of the future, a set of life goals and goals for the country. It is different from a plan, which defines the strategies to achieve the goals. It is like a destination that
